Christian Mandras Sapilan

Computer Science Student · Full-Stack Developer · IT & Network Technician

itsmechanot@gmail.com | Atipolo, Naval, Biliran, Philippines | itsmechanot.github.io | github.com/itsmechanot

PROFILE

4th-year Computer Science student at Biliran Province State University who builds full-stack web systems and mobile apps, from database design to deployment. Brings 4 years of hands-on IT experience as a working student at an internet service provider, plus field work in networking, satellite internet, solar power and CCTV installation. Runs a DTI-registered trading business.

EDUCATION

Bachelor of Science in Computer Science 2023 – Present

Biliran Province State University (BiPSU), Naval, Biliran · currently in 4th year

- Relevant coursework: Data Structures and Algorithms, Object-Oriented Programming, Information Management, Software Engineering 1 & 2, Networks and Communication, Operating Systems, Information Assurance and Security, Intelligent Systems, Human-Computer Interaction, Parallel and Distributed Computing

EXPERIENCE

IT Staff (Working Student) 4 years · weekends

Xfiber Broadband

- Handle IT and network work for an internet service provider: fiber internet installation, network setup and troubleshooting.
- Installed Xfiber PisoWifi coin-operated Wi-Fi machines across Biliran and Leyte, including LPB kit wiring, outdoor access points and captive-portal setup.

Sole Proprietor Sep 2023 – Present

Quadcore Office Supplies and Equipment Trading (DTI registered)

- Run my own business supplying office supplies and equipment.

SOFTWARE PROJECTS

LGU-DPWH IRMS: Infrastructure Reporting and Management System 2026

Solo project, currently under testing by DPWH

- Citizens report road and infrastructure issues with photos, GPS location and severity and receive a tracking code; LGU reviewers for 8 municipalities endorse or return reports.
- DPWH staff convert verified reports into projects that follow the full procurement lifecycle (approval, RA 9184 bidding, award, NTP, progress, completion, defects liability).
- Django · Leaflet maps · Chart.js analytics · SQLite

RideAxis: Terminal Van Ride-Sharing Platform 2025

Solo project, deployed at rideaxis-1.onrender.com

- Passengers check van rides online with real-time seat availability on a visual seat layout, driver ratings and a terminal locator.
- Drivers track trips with GPS on a live route map; terminal admins approve drivers, assign schedules and monitor a statistics dashboard.
- Django · PostgreSQL · Gunicorn · WhiteNoise · Render

Quad-Drag-Do: Completing the Square Math Game 2026

Lead developer, client project for a BiPSU STED Math Major research study

- Game-based learning app with auto-generated quadratic equations, difficulty levels, lessons, and student, teacher and admin roles (classrooms, quizzes, homework, exams).
- Flutter · Firebase (Auth, Firestore, Storage)

CocoScan: Coconut Leaf Disease Scanner 2025

- Mobile app using two on-device AI models: one confirms the photo is a leaf, the other classifies it as Healthy, Yellowing, Caterpillar damage or Flaccidity, with recommended actions and an offline scan history.
- Flutter · TensorFlow Lite · Hive

Pahatod (Ride-Hailing Web App) and Serenity Tours (Biliran Tourism Website) 2024 – 2025

- Pahatod: passenger and driver accounts, ride requests geocoded with Nominatim on Leaflet maps, and a driver dashboard for accepting and completing rides.
- Serenity Tours: tourism website for Biliran destinations, tour services and pricing.
- Django · Leaflet · Bootstrap · SQLite

IT & FIELD INSTALLATION PROJECTS

Free Wi-Fi for All: Kacific Satellite Sites 2022 – 2023

- Installed Kacific satellite internet sites for the government's Free Wi-Fi for All program in Biliran, Samar, Southern Leyte and Abuyog.

Barangay CCTV: Poblacion, Culaba, Biliran Sep 2026

- Installed 4 Hikvision Turbo HD cameras on utility and streetlight poles and connected them to the barangay monitoring station.

Solar Power Systems Biliran

- Mounted rooftop PV arrays and set up hybrid inverters (Deye, Demuda) with lithium batteries (SRNE, Retank) and labeled DC/AC protection boxes.

SKILLS

Programming	Python, JavaScript, Dart, PHP, HTML, CSS, SQL
Frameworks	Django, Flutter, Bootstrap, Leaflet, Chart.js, TensorFlow Lite
Databases	PostgreSQL, MySQL, SQLite, Firebase Firestore, Hive
Tools & Deployment	Git and GitHub, VS Code, Render, GitHub Pages, Figma, Canva
IT & Field	Networking, fiber internet, Kacific and Starlink satellite internet, solar PV (Deye, SRNE), CCTV (Hikvision), PisoWifi

CERTIFICATIONS & TRAINING

- **Deye Three Phase Inverter Training**, Deye Philippines × OnePoint Solar Marketing, Cebu City (Oct 2026)
- **Basic Solar PV Design and Installation Training** (off-grid, on-grid and hybrid systems), RenewaVolt, Tacloban City (Sep 2026)
- **Introduction to AI Literacy and Responsible Use**, CHED ACHIEVE × Mapúa University (Sep 2026)
- **Networking Basics**, Cisco Networking Academy (May 2026)
- **Integrated OS: Be More Digi-TALINO** webinar, Integrated Office Solutions, Inc. (Sep 2025)
